

Approve a budget that supports the PGCPs Language Immersion Task Force recommendations that provide continuity of services through 12th grade for our current elementary students in our Language Immersion programs. We are requesting the following:

1. The location for the middle and high school accommodates the projected growth of our Spanish Immersion programs and is centrally located.
2. The middle school curriculum offers multiple pathways to proficiency to include Spanish Language Arts courses and content courses.
3. Work to obtain the International Baccalaureate Middle Years Programme with a continuation through high school.
4. Consolidate the all of the PGCPs Language Immersion Programs into an existing high school with the option of an International Baccalaureate program and opportunities for Dual Enrollment for Grades 9-12.
5. Ensure that there are dedicated language immersion program coordinators for each immersion program and the Principle has a strong understanding of language immersion instructional curriculums.
